I. INTRODUCTION

1. The second part of the thirteenth session of the Subsidiary Body for Scientific and Technological Advice (SBSTA) was held at the Netherlands Congress Centre, The Hague, Netherlands, from 13 to 18 November 2000.

2. At the opening meeting, held jointly with the Subsidiary Body for Implementation (SBI) on 13 November 2000, the chairmen of the subsidiary bodies welcomed all Parties and observers to the second part of the thirteenth sessions of the subsidiary bodies.

3. The chairmen recalled that they had prepared new documents on some issues, following the mandates given by Parties at the first part of the sessions to facilitate and advance negotiations at the resumed sessions. In preparing these texts, the chairmen had drawn on views expressed at the first part of the thirteenth sessions, submissions from Parties, and extensive bilateral consultations, including inter-sessional consultations.

4. The chairmen expressed the hope that these revised texts would be useful additions to those considered at the first part of the sessions, all of which would remain on the table. They emphasized that solid, well-drafted decisions must be developed to lay the foundation for success at the sixth session of the Conference of the Parties (COP) and to make ratification of the Kyoto Protocol possible.

5. Also at the joint meeting on 13 November, the chairmen recalled that at the first part of the thirteenth sessions, they had requested the co-chairs of the contact groups to resume their responsibilities at the second part of the thirteenth sessions, including those who were not able to participate in the first part of the sessions (FCCC/SBSTA/2000/10, para. 66).
